Maria Nelson, MD

Assistant Professor of Clinical Surgery
Keck School of Medicine of USC

Dr. Nelson's clinical focus and expertise is in benign and malignant breast disease.

Dr. Nelson's research interests include the diagnostic role of breast imaging techniques and the complex nature of decision-making in breast cancer care.

KNOW FOR SURE

Schedule your mammogram today

When you schedule your annual mammogram at USC Verdugo Hills Hospital Breast Healthcare Center, you can be confident you're getting the most accurate, comprehensive care. By combining the latest digital imaging technology and radiologic expertise with access to the world-renowned physicians of Keck Medicine of USC, we can detect abnormalities others may not see.

To schedule your \$99 mammogram offered during the month of October, call **(818) 952-2266**
